ABOUT US

Maharashtra Information Technology Support Center is registered under society act 1860. We have been working for the noble cause of youth empowerment. Since 2006 our major presence is in the state of Maharashtra. Our focus is on providing job specific skills to youth as per the local & global demand of the industries. We are associated with more than 8 multi faculty universities in the state of Maharashtra, this association is through the higher & technical ministries of the government of Maharashtra. Our motto is to provide value added skilled human resources. Along with developing entrepreneurial skills among the youth. We are working with government of India & government of Maharashtra to implement their various schemes & programmer related to skill development and youth empowerment. Our efforts & initiatives in this field will be ultimately useful for national development and national productivity. During this span of a decade we have provided services to more than 33 thousands youth in 8 universities covering 36 districts.

We are efficiently implementing the schemes & programmes with the help of network more than 100 youth welfare centers. We are playing catalytic role in collaboration with more than thousands industries by providing them human resources & at the same time providing placement to the youth. Our activities & programmes are multidimensional; now we have focussed in 8 sectors of the skill development programmes. With a balance view of gender sensitivity approach. We are empowering Self Help Group (SHG) of woman, focussing on the IT sector, Apparel making & Bakery Product. We have well defined and useful future plans for corporate world & academic institutes to provide them various services for quality enhancement in the higher education & corporate management. Our target for the next 10 year is to train 1 lakh youth including undergraduate, graduate and post graduate while providing special attention or with a special focus on the youth needs.

VISION

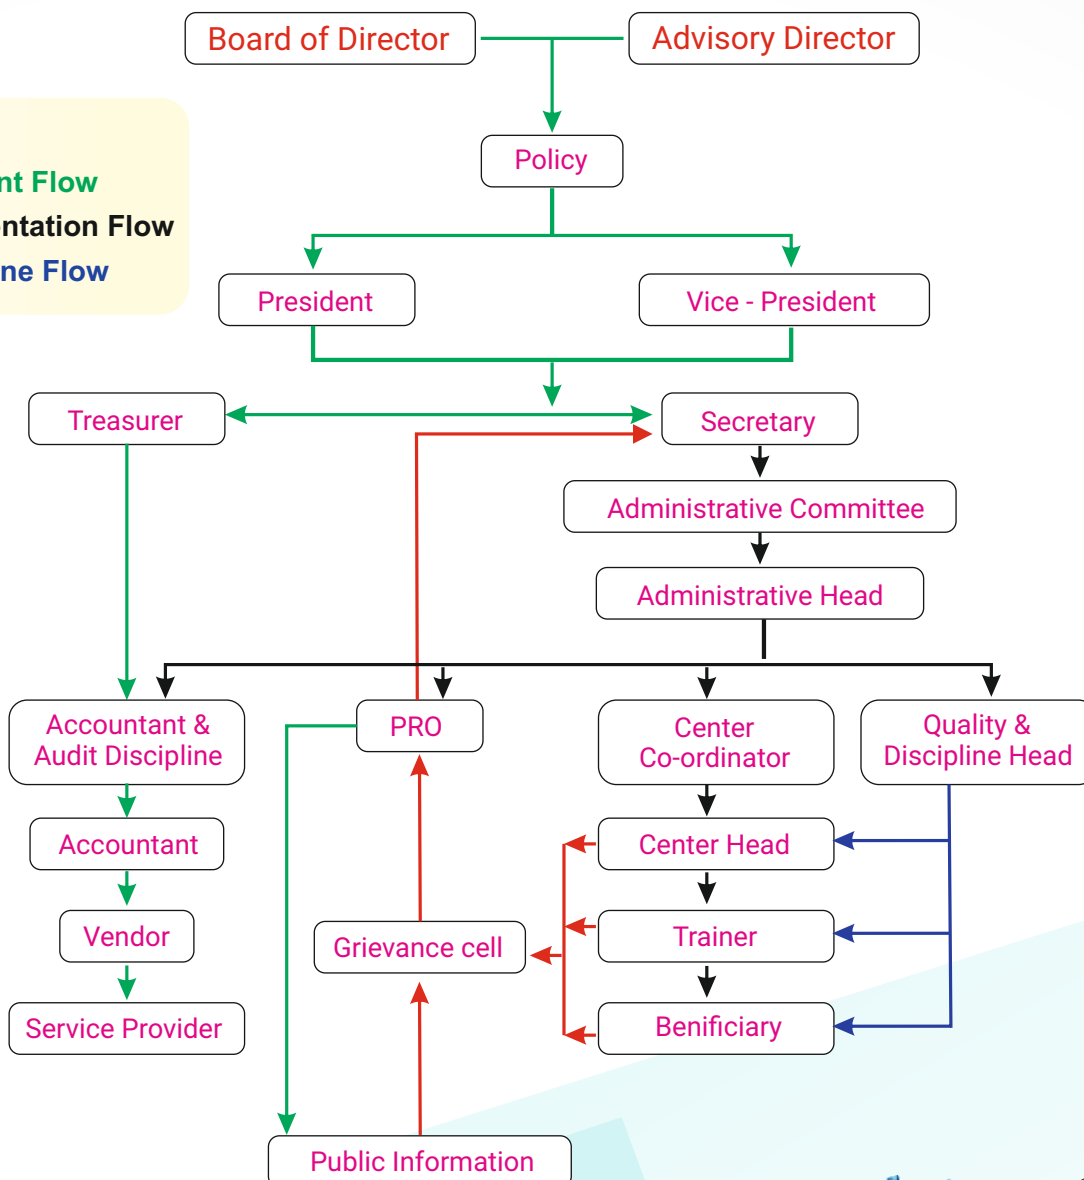

Empower youth and increases there employability through non- conventional skill development, while creating a Socio-economic standard that leads to a stable giving standard for their family.

MISSION

Our mission is to establish an end-to-end implementation set up to develop the skills and qualities of youth according to the requirements of industry and corporate sector while providing effective solution to the government for implementing various youth - focused-schemes.

MESSAGE FROM DIRECTOR

“

"Maharashtra Information Technology Support Centre has been consistently working since the last 17 years, in the areas of skill development for the youth and we are also implementing various programs with the aim of assisting women, senior citizens and economically weaker sections. The organization's directors and consulting members have been consistently making decisions and planning unilaterally for the interest of the society, through various programs. It has been a pleasure to me, to have been blessed with the opportunity to implement projects and contribute my share. All the managing officials, office bearers, employees, all the teachers working in various departments, non-teaching staff, well-wishers who are consciously and consistently working for the achievement of best interests of the organization and have lend their hands, helping us to fulfill our responsibilities efficiently, with their co-operation. The response and active participation reflected from the components of the society that we work with have been a powerful fuel for the motivation behind growth of the organization. I would like to express my deep gratitude for the eager and anticipated participation of all our cooperators, I Hope that they will continue to bestow their blessings to the organization which has been like a family to work with.

Looking at the amplitude & comprehensiveness of the present efforts and work of the organization, it is herculean to include all of them and present it in the annual report of the organization, & hence the endeavour has been made to include and present selective things. The programs which are needed to be showcased at national level and state level get prominence in such reports. Although we value each and every program, achievements and contributions, it is likely that the mention of few individuals, organizations, and programs etc. might have got skipped in the present report and we acknowledge such possibility, but I am sure that you all will admire such crispness whole heartedly. I will ensure that the objectives set by the organization for the coming years are met with maximum capacity, agility and dynamism and assure that the responsibility entrusted to me shall be executed with utmost sincerity and with sense of urgency & most faithfully.

The organization is grateful towards the colleges which have showed concern and enthusiasm to work and co-operate with our organization. With the co-operation of our staff, our teachers, Principal promoters, Regional Co-ordinators, District Co-ordinators, College Co-ordinators, and everyone pouring their heart in the project, we hope to be able to create a change in the system and create a better economy and society with opportunity for every hardworking pupil. The project has acted like one connecting link between all the like-minded and active colleges, and helped them to improve by looking at examples of other colleges with developed infrastructure, through college visits and workshops. Through this project we have brought a change to the education system, where institutes instead of competing with each other, are walking together towards one sole aim to create better infrastructure for students. The students were also actively participated, and the project has been directed solely towards their demands and requirements, to provoke their views and energy into this movement towards development. We hope to grow more larger and receive more of your co-ordination, to steadily work towards our grand goal of development. Once again I extend my sincere thanks and best wishes to every one and all !

OUR PROJECTS

"Career Katta" has been a prominent project in the center of all efforts of the organization since the past few years. The aim of this project had been to support the education system across the state for better opportunities through quality education for the young students. The project has been working consistently to fill the gap between industrial requirements and lack of skill development in college students. "Career Katta" has also been working to provide college students from Maharashtra, who aspire to contribute to the country through administrative services, banking services etc. with required resources and training at affordable prices. It has not only helped to make students capable of being better employees, but it has also focussed on creating better employers through entrepreneurial development in students by helping them with resources like guidance from technical personalities, industry leaders and other highly valued professionals, and with required infra structural conditions like incubation centres, financing etc. The colleges around Maharashtra have been highly important to the work and have contributed the most for the development of the youth.

VOICE CARE WORKSHOP

A one-day online workshop on 'आवाज गुरुजनांचा-वेध देशाच्या भवितव्याचा' was launched in association with 'Department of Higher Independent Education, Government of Maharashtra', 'Maharashtra Information Technology Support Center' and 'Vice Clinic, Thane' and started getting so many positive responses...!!!! The journey towards the realization of the dream that 'Voice Care' should be brought to every teacher in Maharashtra has started! The guidance and support of Hon'ble Mr. Uday Samant, Minister, Ministry of Higher and Technical Education, State of Maharashtra is invaluable in this regard.

भारतीय संविधानाचे पारायण

"Recitation of Constitution of India" jointly organized by National Human Rights Commission and Maharashtra Information Technology Support Centre. For the first time, the recitation of the Constitution of India was done online in order to make every Indian citizen aware of the rights, duties and responsibilities of every citizen as described in the Constitution. We have a tradition of giving information about life values that are essential for daily life through Parayana.

It is an essential program for people across every age group to cultivate our democratic values in a society and plant the seeds of social respect towards the fundamental rights, responsibilities and duties of a citizen. This was done through an online interpretation of the Indian Constitution in collaboration with Hon'ble Dr. Dhanraj Vanjari, Retired Assistant Commissioner of Police, Literary and Scientist of the Constitution.

वृत्तवेध : चालू घडामोडी

In association with Department of Higher and Technical Education Department of Maharashtra State and Maharashtra Information Technology Assistance Center, under the initiative of Career Katta, on the occasion of Amritmahotsav of Independence Day, a program named 'वृत्तवेध : चालू घडामोडी' was inaugurated.

The initiative focussed on helping the students preparing for competitive exams, with detailed and consistent study and analysis of daily news and newspapers, for helping with their general knowledge study. This unprecedented initiative by Mr. Shrikant Ingale (Publisher - 'Yashwant' competitive exam) was organized through YouTube live interaction.

IAS आपल्या भेटीला

IAS आपल्या भेटीला, project launched under 'Career Katta' by Maharashtra Information Technology Support Center in Collaboration with Department of Higher and Technical Education of Maharashtra state. The organization and the higher authorities of the state saw this initiative that would give direction to the energetic and enthusiastic youth of Maharashtra, a large part of which is excited and ambitious about serving as a Civil Administrator, Police Officer, or any other administrative job in the bureaucracy. But the institutions in Maharashtra have failed in providing adequate help to such youth, so most of the youth can either not afford taking such classes, or have to leave the state for it. But the development of online education infrastructure, we saw an opportunity to meet the requirements. In association with the Department of higher and Technical Education, the project IAS आपल्या भेटीला, was launched.

To provide students with access to quality education from best professionals across the state and students will also have the opportunity to interact live online with various administrative officers on the Career Katta App for guidance. This course reached the students, with the fees of Rupees 365 for 3 years, with a subscription based system. It is an initiative that has succeeded and we hope sees more success in implementation and grows into a movement of creating the next generation of responsible administrators of the country.

उद्योजक आपल्या भेटीला

With the Motto of "Not just search for employment, But to create it", Career Katta, launched the course, "उद्योजक आपल्या भेटीला". This is subscription based course available on the platform of "Career Katta" App, at the fees of Rs. 365 per 3 years. Under this course students get access to interviews of successful entrepreneurs who also answer the questions, queries of students and share the experiences and roadmap, through a live session. This initiative has not just been limited to the course, as with the help of The Department of Higher and Technical education Of Maharashtra State, we have been able to help colleges create an environment and infrastructure in the campus, to promote entrepreneurial ability among students, and helping them to get finances, capital, machinery and other requirements fulfilled at the campus itself, through incubation centers and etc. We have achieved great success until now and are optimistic to see more success and create unicorn company owners straight through colleges.

Add On Courses

The platform of 'Career Katta' app has been helping students with guidance on employability and entrepreneurship, through various courses. The "Add-On" Courses on the app started with the initiative of bridging the gap between lack of technical education in colleges and industrial requirements. There are more than 50 such courses with focus on developing employability skills like Communication, Computer Applications etc. which are also the main focus of the New Education Policy which has begun its implementation throughout the country. The courses on the app, will provide students with 2 credits each course, for their Academic Bank of Credits. The project will boost the implementation of NEP in the state, and with the trajectory of the success, we are optimistic about creating efficient Human Resource across the state and help increase employability with economic development.

SUCCESS STORIES OF PROJECT

A significant highlight was the selection of four students for the Cyber Defense Cell through the Cyber Security Force course. Among them, Ms. Prathana Gend from the Geography Department of Maharishi Dadasaheb Limaye College stood out. Her journey through the Career Katta initiative, at a nominal cost of 365 rupees, led to advanced training opportunities in Ranchi and Chennai. Her parents expressed profound gratitude for Career Katta, which facilitated her exceptional career advancement and success. The program was completed successfully, making a meaningful impact on the participants and the community by empowering young minds with crucial cyber security skills.

Sarth proudly introduced Purnangini Savita Tai, the Hatkanangle Taluka Coordinator for the Stree Ek Shaktipeeth Initiative under the Maharashtra Information Technology Support Center. During that significant event, 259 students confidently addressed school teachers and primary health center doctors.

Savita Tai, with her powerful voice, spoke about the organization, expressing her deep appreciation and pride in the initiative. She highlighted the positive changes it had brought to her life and her family's and expressed a strong commitment to supporting other Purnanginis in the region.

Her speech likened the initiative's impact to well-rooted trees that grow to provide shade, flowers, and fruits, symbolizing hope and fulfilment. This moment was a testament to the pure joy and satisfaction of their accomplishments.

NAV URJA FESTIVAL 2022

Navurja Mahotsav 2022, held online over nine days, was organized by the Maharashtra State Higher and Technical Education Department and the Maharashtra Information Technology Support Centre as part of the Career Katta initiative. This festival focused on women's self-reliance from men's perspectives, featuring discussions on nine diverse skills.

The event reviewed past achievements in women empowerment, addressed current challenges, and proposed future solutions. Nine distinguished male personalities contributed their expertise, while women principals presided over the program, fostering discussions on women's issues.

Gratitude was extended to the planning committee, online audience, and regional coordinators for their efforts. The event successfully concluded, leaving a lasting impact on all participants.

Life is Beautiful मज्जाच मज्जा

A mesmerizing workshop imparting the mantra of joyful living, "I am beautiful... Life is beautiful... The universe is beautiful..." was organized by the Maharashtra Information Technology Support Center for women from the "Stree Ek Shaktipeeth" and "Akshaya Narishakti" Sangh on January 21, 2023.

During the "Life is Beautiful - Mazzaach Mazzaa" workshop, distinguished guests including Mr. Namdev Bhosale (Joint Secretary, Department of Entrepreneurship and Skill Development, Mumbai), Mr. Rajendra Kurhade (Deputy Commissioner, Sales Tax Commission), Mrs. Mukta Bhosale (Director, Manmukt Foundation), and Mrs. Manisha Kurhade (Director, Manmukt Foundation) shared insights on what should be done for empowerment on social, economic, familial, and mental levels.

Through the message "Express, Empty, Liberate," they conveyed the secret of initiating a new life, a rebirth. Following the workshop, many participants felt encouraged to express themselves freely. Resolving to forget past sufferings and overcome challenges, all the women present committed to living a happy, content, and fulfilling life going forward.

Additionally, a felicitation ceremony was held for the newly elected District Planning Committee member, Mr. Satyajit Patil, and his wife. The event was presided over by the organization's President, Mr. Yashwant Shitole, and Advocate Dilshad Mujawar presented the report of the last one and a half years of the Stree Ek Shaktipeeth initiative.

"NAVNIRMITI CEREMONY - 2022"

The Maharashtra Information Technology Support Center organized an innovative initiative titled "स्त्री एक शक्तीपीठ" for female participants. As part of this initiative, a special event named "Navnirmiti Ceremony - 2022" was held on Thursday, September 29, 2022, in celebration of Navratri. This event focused on the significant theme of employment and self-employment opportunities, providing guidance to the attending women and members of self-help groups.

The ceremony commenced with the lighting of a lamp by esteemed guests Mr. Vishwajit Muneswar, Mr. Yogesh Shelar, and Advocate Mr. More. Mr. Vishwajit provided insightful information to the audience about the current business opportunities he is associated with, explaining everything from the freedom of thought to the entrepreneurial skills essential for financial independence in a very precise and detailed manner.

Mrs. Jyoti Kashid guided the women on the process of earning through tailoring work from home, explaining the entire procedure comprehensively.

Adding a lively spirit to the event, Kolhapur Ukhana Queen Mrs. Arpita Rabade engaged the participants through folk dances like Hadga, Garba, and spot games, doubling the joy of the attendees.

The event was introduced by Advocate Dilshad Mujawar, with a vote of thanks extended by Pranoti Shitole. The ceremony was hosted by participants Srushti Desai and Sariputra Sutar.

The event was attended by members of self-help groups such as Savali, Arshivad, Saksham, and Ranragini, along with women from Kolhapur city and district.

It can be confidently stated that this Navratri-themed Navnirmiti Ceremony marked the beginning of the journey towards economic self-reliance for women, setting the stage for an empowered and confident future generation of women.
